IT 4100: File Systems

Questions 2

Due according to date on Canvas

Assignment

Create 10 multiple choice questions relating to anything we have covered since the last exam.

- LVM
- NFS
- ISCSI
- UEFI
- GPT
- Parted

Good content for questions can come from my slides, lectures, or the assigned reading. You shouldn't write questions that aren't beyond these things.

Submission and Passoff

- The questions should be in a text file named `questions.txt`. It should be a plain text file. Each question should have the following format:

```
Question Text
```

Answer Distractor 1 Distractor 2 Distractor 3

So one of my questions might look like this:

```
    What is the minimum block size on an EXT4 filesystem?
    1024
    2048
    4096
    8192
```

- Use the [Submisions link](#) at the top of the page to submit your text file to the `Questions 2` assignment.
